

TRANSPORT ADVISOR

Environmental policy

Transport Advisor recognizes its responsibility for the environment and will ensure compliance with all relevant current and future legislation. Where appropriate, we will also endeavor to be compliant with appropriate codes of practice.

We are committed to minimizing the environmental impact of our operations and continue to operate side by side with our operators, suppliers and stakeholders. We will achieve this through our commitment to:

- Reduce the amount of waste produced
- Maintain a paperless office environment
- Off set our carbon footprint by developing a company forest and planting trees monthly.
- Provide carbon off set options to our customers. We will allow customers to buy plants for our forest and they can use them to offset their journeys.
- Continue to manage our CO2 Neutral website which trees are planted to offset the carbon footprint.
- Make a representative available for community meetings if required/possible;
- Monitor our water use and effluent production;
- Review and enforce our sustainable procurement policy to align with good practice
- Minimize noise from the site; and
- Reduce emissions by selecting new efficient vehicles including euro 5 models with bio efficient fuel, and electric and hydrogen buses where possible.
- Work closely with environmental advisors and regulators to improve our overall environmental credentials and ensure the ongoing conservation of sensitive ecosystems for which we are responsible.

Transport Advisor will foster environmental awareness and understanding in all employees, suppliers, customers and subcontractors. Where practicable, the company will provide information and assistance to customers on environmental issues arising from its products and services. Improvement will be continuous, and the company will report internally and externally on its progress against its goals and objectives.

Signed:

Benjamin Carruthers

Company Director
